

## Letter of Recommendation for Chin Ao-Wen

25 August 2025

To whom it may concern,

I am pleased to recommend Chin Ao-Wen, who served as a Business Intelligence (data Analytics) Intern at ANEXT Bank from June to August 2025. During this period, Ao-Wen made meaningful and valuable contributions to our team through his technical skills, eagerness to learn, and work ethic.

Ao-Wen's primary responsibilities included developing efficient ETL scripts as well as dashboards to support a variety of business users and managerial needs by providing clearer business insights, allowing them to make data-driven decisions. For example, Ao-Wen led the project in exploring a new data domain within the bank - customer onboarding authentication data extracted from ANEXT Bank's mobile app, to identify potential onboarding pain points. Despite the many roadblocks throughout the project, Ao-Wen showed his flexibility by offering various ideas and alternatives, demonstrating his deep understanding in both the data and product. All findings were meticulously documented and produced fundamental analyses that will definitely be paramount in any future work in this area. Ao-Wen also provided great assistance in assisting with the development of scripts for data manipulation as per metric requirements, as well as data visualizations tailored to user needs and design requirements. The developed dashboards allowed team leads and managers to easily track and identify team performance. Ao-Wen demonstrated his ability to take feedback positively and learn quickly which was reflected in the improvements made in subsequent iterations of the project.

Throughout his internship, Ao-Wen has demonstrated the ability to learn quickly and face challenges with curiosity and has a strong sense of determination. Ao-Wen was proactive in clarifying any doubts he had and maintained a high level of professionalism in the workplace as well as being approachable and a good team player, which made him a pleasure to work with.

Based on his time here at ANEXT Bank, I am confident that Ao-Wen will continue to excel in his future endeavours. He has the technical foundation, adaptability, and work ethic to thrive in and be an asset to any team he is a part of.

Sincerely,

*Lai, Shih Han*
